

Request to Attend She Code Africa Summit 2026

Subject: Request to Attend She Code Africa Summit 2026

Dear [Manager/Boss's Name],

I am writing to request approval to attend the She Code Africa Summit 2026, taking place on 19 September 2026 in Lagos, Nigeria.

The 2026 Summit, themed “A Decade of Impact: African Women Architecting the Digital Future,” marks She Code Africa’s 10th anniversary and brings together women in technology from across Africa, including professionals, founders, students, technology leaders, innovators and ecosystem stakeholders. It is the flagship summit of She Code Africa and is designed to create opportunities for women to learn, connect, grow their careers and engage with the people and ideas shaping Africa’s digital future.

About She Code Africa Summit

For ten years, She Code Africa has created opportunities for African women to access technology education, build careers, launch businesses and grow as leaders.

The 2026 Summit brings this community together for a full-day experience focused on career growth, leadership, technology, entrepreneurship, capital, opportunity and professional connections. The programme is expected to feature 500+ attendees, 20+ speakers and 10+ sessions, alongside opportunities to engage with recruiters, industry professionals, founders and other members of the technology ecosystem.

Why It Is Relevant to My Work

As a [Job Title], I believe the Summit is relevant to my professional development and the work I currently do at [Company Name].

I am particularly interested in [insert 2–3 areas relevant to your role, e.g. leadership, product development, technology trends, marketing and communications, entrepreneurship, AI, community building, talent development, etc.].

The opportunity to learn directly from professionals and leaders working across these areas would give me new perspectives that I can apply to [specific responsibility, project, team objective or area of work].

[Add 2 or 3 sentences explaining the specific connection between the Summit and your role.]

What I Plan to Take Away

My goal is to leave the Summit with practical knowledge and perspectives that extend beyond the event itself.

In particular, I hope to:

- Gain new approaches and ideas that can improve my current work.
- Develop a stronger understanding of relevant developments and opportunities within the technology ecosystem.
- Learn from the experiences of professionals and leaders working in areas relevant to my career.
- Build meaningful professional relationships that could lead to future collaboration, knowledge-sharing or opportunities.
- Identify resources, tools, practices or ideas that could benefit my team or organisation.

The Summit's programme includes Keynotes & Vision Sessions, Careers, Leadership & Scale, Capital & Opportunity, and Hiring & Connections, providing opportunities to engage with different aspects of professional and industry development.

Value to [Your Company Name]

I see this as an opportunity to bring value back to the organisation, rather than simply an individual professional development experience.

After the Summit, I will share a summary of the most relevant insights and industry trends with my team, highlight practical ideas or approaches that could be applied to our work, and share useful resources, opportunities and professional connections from the event.

Where appropriate, I will also conduct a short knowledge-sharing session for relevant members of the team and identify areas where the knowledge gained could support our current priorities.

Investment Required

Requested Company Support: ~~N~~[Amount]

Preferred Ticket: [Next Gen / Community Builder / Other]

Registration Link: summit.shecodeafrica.org

Request

I would appreciate the opportunity to attend the She Code Africa Summit 2026 with the support of [Company Name].

I believe the experience will contribute to my continued professional development while giving me the opportunity to bring relevant knowledge, perspectives and connections back to the organisation.

Thank you for considering my request. I would be happy to provide any additional information required regarding the Summit, registration or the expected outcomes of my participation.

Sincerely,

[Your Name]
